Professional Summary

Software Engineer with experience building and maintaining production-grade web and mobile applications using React, Next.js, React Native, Firebase, and FastAPI. Strong focus on scalable system design, real-time applications, cloud-based backends, and automated testing with Playwright. Experienced in working in outstaffing and product teams, delivering complex solutions across fintech, real estate, retail, and marketplace domains.

Employment History

Full-Stack / Mobile Developer

Astana

TOO TIZIM APP (Outstaffing)

Sep 2025 – Present

- Working in an outstaffing model on multiple client projects across fintech, real estate, retail, and marketplace domains
- Developed cross-platform applications (iOS, Android, Web) using React Native (Expo), React, and Next.js
- Built and maintained Firebase-based backends using Firestore, Cloud Functions (Node.js & Python), Authentication, and Storage
- Implemented and maintained automated end-to-end testing using Playwright for web and mobile applications
- Participated in large-scale system migrations and legacy modernization projects

Frontend Developer Intern

Remote / Astana

IDOS GAMES

Sep 2025 – Dec 2025

- Worked on a production web platform using Next.js, TypeScript, Prisma ORM, and PostgreSQL
- Improved UI components, page layouts, and authentication validation flows
- Refactored and expanded Playwright E2E test suite to improve reliability and coverage
- Developed an AI-powered video generation platform with multi-model support (Sora, Veo)
- Gained experience with sprint planning, code reviews, debugging, and production workflows

Freelance Full-Stack Developer

Remote/Almaty

Multiple Clients

June 2025 – Present

- Developed Weekly Perfect Q - Kazakhstan's first bilingual manga reading platform with 15+ microservices
- Built Imperium Furniture Store with Next.js 14, featuring bilingual e-commerce functionality and admin panel
- Created MNM FUTURE e-commerce platform for musical instruments
- Implemented FastAPI backends with advanced user management, content moderation, and notification systems
- Utilized AI tools (Cursor, Claude, ChatGPT) to accelerate development and improve code quality

Software Developer (Part-time)

Almaty

TAS GROUP

Nov 2024 – June 2025

- Developed enterprise web applications using .NET Core, C#, MSSQL, and React
- Implemented monolithic architecture solutions for large-scale business applications
- Applied SOLID principles and design patterns to create maintainable, scalable code

Data Analyst (Part-time)

Kaskelen

SDU Technopark

Sept 2024 – Dec 2024

- Built data dashboards for decision-making
- Created data visualization solutions to track KPIs
- Contributed to Shanyraq platform as Frontend Developer

Frontend Developer

SDU Technopark

Kaskelen
Jan 2024 – Aug 2024

- Led development of Shanyraq platform for roommate matching
- Integrated Mapbox API for location-based searches
- Implemented responsive UI/UX with React

Education

SDU University

BSc in Information Systems

Sept 2022 – Present

Current GPA: 3.37 / 4.00

nFactorial

Full-Stack (MERN) Course

Sep 2024 – May 2025

Completed intensive program covering MongoDB, Express.js, React, and Node.js with hands-on project development.

125 High School

High School Diploma

Sept 2021 – Jun 2022

UNT Score: 114

Major Projects

ProvidWell – Full-Stack & Mobile Developer

Enterprise real estate analytics and mortgage intelligence platform (Web, iOS).

- Built cross-platform application using React Native (Expo) and Firebase backend
- Developed Cloud Functions (Node.js & Python) for analytics, PDF generation, and automation
- Integrated MLS data, mortgage history, FRED economic data, and Google Maps
- Created Playwright E2E tests covering core user flows

Beksar – Mobile / Full-Stack Developer

Retail business management (Android, Web, Desktop).

- Developed business management platform using React Native and Expo
- Led migration from legacy Beksar system to new architecture (2+ years of data).
- Built Playwright E2E testing framework using Page Object Model

InTech – Full-Stack Developer

Enterprise multi-project task management and collaboration system.

- Designed multi-project Firebase architecture with cross-project task synchronization
- Implemented role-based access control (Customer, Operator, Executor, Admin)
- Built real-time Kanban boards using Firestore listeners
- Automated PDF/Excel document generation and reporting pipelines

Qaynar – Full-Stack Developer

Kazakhstan's first bilingual manga platform. Built with Next.js, TypeScript, FastAPI, PostgreSQL, scalable microservices architecture, user roles, moderation, notifications.

Additional Projects

- IDOS Games - Web-based gaming platform, built UI and logic for AI video creation (Sora, Veo).
- Biolink - IOS application built with React Native and native iOS packaging
- Sen Ushin - Web application to be book author, Nextjs Firebase
- Shanyraq – Roommate and housing finder platform. Built with Next.js and Mapbox API.
- MNM FUTURE – E-commerce for traditional Kazakh musical instruments. Built with React 19, Tailwind CSS, Framer Motion.

Technical Skills

Frontend: React, Next.js, TypeScript, JavaScript, Redux Toolkit, HTML5, CSS3, Tailwind CSS, ShadCN UI-IO, React Hook Form, Framer Motion

Backend: Firebase (Cloud Functions), Python (FastAPI), Node.js, C# (.NET Core), Java, REST APIs, Microservices, Authentication (JWT), WebSocket, cronjobs

Mobile: React Native, Expo, iOS, Android, PWA

Databases: PostgreSQL, MySQL, Firestore, MongoDB, MSSQL, Redis, ORM (SQLAlchemy, Prisma)

DevOps & Tools: Git, Docker, AWS, Vercel, GitHub Actions, Nginx, Linux (Red Hat), Swagger/OpenAPI

Testing: Playwright (E2E), QA Automation, Web & Mobile Testing

AI Tools: Cursor, Antigravity IDE, Claude AI, ChatGPT, GitHub Copilot, Prompt Engineering

Data Analytics: Python (Pandas, NumPy, Matplotlib), Data Visualization, Dashboards

Networking: Cisco NetAcad (CCNA), Enterprise Networking, Security, Automation
